

Agro Bridge Pvt Ltd

Cultivating Sustainable Futures

Introduction:

Agro Bridge is a pioneering agro-based company committed to transforming agriculture in Pakistan. Registered with SECP, FBR, and other regulatory bodies, we are headquartered in Faisalabad, the hub of Pakistan's agricultural sector.

CORE VALUES:

Our core values include innovation, sustainability, and collaboration. We strive to revolutionize traditional farming practices through the integration of advanced technology and research-based methodologies.

Mission

Our mission is to provide sustainable and innovative agricultural solutions that improve food security, enhance farmer livelihoods, and contribute to national economic growth.

Vision

Pioneering agro-products in Pakistan, advancing global agriculture for food security. Transforming farming for sustainable crops and global food stability.

Strategic Objectives:

1. Expand cultivation to over 2000 acres in the upcoming season.
2. Develop new value-added products and packaging solutions.
3. Foster partnerships with international organizations for knowledge exchange and market access.
4. Invest in research and development to continually improve crop quality and yield.

Key Achievements:

1. Agro Bridge is the leading garlic grower in Pakistan for the year/season 2023-2024, with over 200 acres dedicated to garlic cultivation.
2. We lead the development of the G1 Garlic Crop, promoting sustainability and reducing waste.
3. Partnerships with top research institutions drive innovation in agriculture.
4. Introduction of value-added products derived from G1 Garlic meets diverse market needs.
5. Active involvement in sustainable agriculture advocacy promotes food security and climate resilience.

Potential of NARC-HG1 Garlic

NARC-HG1 Garlic is a high-quality garlic variety developed through extensive research collaboration between Agro Bridge and top agricultural institutions. With a potential to revolutionize garlic cultivation in Pakistan, NARC-HG1 offers numerous advantages.

Key Features:

1. Highest production variety compared to other cultivars.
2. Extended shelf life of over one year.
3. Minimal wastage due to its unique characteristics.
4. Large bulb size and high allicin content, making it ideal for various applications.
5. Partnerships: Agro Bridge has collaborated with top agricultural research institutions and progressive farmers to promote the cultivation and adoption of NARC-HG1 Garlic across Pakistan.

Quality of Garlic

Agro Bridge is committed to delivering premium-quality garlic products to our customers. From cultivation to packaging, we ensure the highest standards of quality and hygiene.

Product Range:

- a. **Garlic Bulbs:** Our garlic bulbs are carefully harvested and selected to ensure uniformity in size and quality.
- b. **Value-Added Products:** We offer a range of value-added products derived from NARC-HG1 Garlic, including garlic paste, garlic pickle, and more.

Packing:

Our products are packed using state-of-the-art packaging technology to preserve freshness and quality. We offer various packaging options to meet customer preferences and market requirements.
