1. General:-

The economy of Pakistan predominantly is based on agriculture. Realizing it, provincial and federal agencies have incredibly increased the funding to develop this sector on scientific and sound footings. Very special role, regarding the streaming and funding of the agriculture education in the country, is being played by Higher Education Commission. Unfortunately, besides harvestable benefits, it has catalyzed the mushroom growth of agriculture education institutions; some of them neither have proper expertise nor infrastructure. It is therefore, imperative to ensure quality and purposefulness of educational programs; it needs direction, guidance, and mechanism to achieve quality standards. There is a dire need of assessment of education institutions with respect to curricula, student's learning, educational delivery systems, strength of faculty and students, laboratories, research, agri. farms and other infra structures that promote the healthy activities among students and teachers. Accreditation processes are considered an effective instrument to achieve these goals.

Accreditation protects and promotes the interest of all stakeholders e.g. academicians, parents, students, academic administrators, employers, and taxpayers. It serves to notify parents and prospective students that a program has not met minimum standards, faculty, deans and administrators of a program's strengths and weaknesses and way of improve the program; Employers that graduates are prepared to begin professional practice, taxpayers that their funds are spent well; and the public that graduates are aware of public health and safety considerations.

Realizing the benefits and needs of accreditation, the establishment of National Agriculture Education Accreditation Council (NAEAC) was strongly recommended in one day joint meeting of Deans' Committee for Restructuring of Agriculture Subjects held on December 18, 2004 at HEC Regional Centre, Lahore, for accreditation of degrees in agriculture in Pakistan.

Agriculture is major academic discipline and professional field in Pakistan. A large number of educational institutions offer degree programs in agriculture related areas in public sector. It has therefore become essential that an internationally acceptable and industrially viable set of citation may be evolved for various degree programs in agriculture related degree awarding institutions. For this purpose, it is proposed that an

accreditation authority be setup, which would periodically evaluate, scrutinize, and monitor the standards followed in different degree awarding institutions and their affiliated colleges. This authority shall be termed as the National Agriculture Education Accreditation Council (NAEAC).

2. Establishment and Functions of the Council:-

Whereas, Higher Education Commission was constituted on 11th September, 2002 by the promulgation of Ordinance, F.NO. 2(1)/2002. Pub And whereas the Higher Education Commission has been authorized in article 3 Sub-Section (e) to set up national or regional evaluation Council or authorize any existing Council or similar body to carry out accreditation of Institutions including their departments, faculties and disciplines by giving them appropriate rating. The Commission shall help build capacity of existing Councils or bodies in order to enhance the reliability of the evaluation carried out by them.

Whereas, now there is an urgent need for the constitution of the **National Agriculture Education Accreditation Council (NAEAC)** for the smooth and the efficient working of the affairs of the Higher Education Commission regarding the accreditation of institutions and their departments, faculties and disciplines by giving them appropriate ratings, now therefore, the said Council by the name of National Agriculture Education Accreditation Council (NAEAC) is established with immediate effect with the following, organization, objectives, functions and duties to perform:

i. Controlling Authority:-

The Controlling Authority of the Council shall be the Chairman, Higher Education Commission, who may supervise the affairs of the Council.
